## **Schools of Social Work Deans' Consortium Project for Evidence-Based Practice in Mental Health Field Placement Sites in Mental Health Programs in New York State**

The following list of agencies and facilities have programs that are currently approved as EBP field placement sites. Students who have been selected for these field placements will have opportunities to learn one or more Evidence Based Practices (EBPs) during their internship, and their successful completion of this placement will satisfy the field placement requirements for an award. Additional sites are considered as needed, and if approved, may be added to the list.
