

**Rockland PC  
Regional Advisory Committee Meeting  
March 24, 2014**

Break out questions:

1. What do you like about the idea of EMR / EHR?
  - Electronic Prescriptions
  - Portability
  - Nice and clean paved road (paperless environmental friendly)
  - Not having to request and get instant access to records
  - Medication history already on record- don't have to try to remember past meds and doses
  
2. What concerns do you have about EMR? EHR?
  - Doctors will use different software.
  - Takes away interactions/ only ask things are prompted by computer
  - Being judge on chart instead of what you want said
  - Being stigmatized because they hear you have a mental illness
  
3. What things should we add that would be helpful to recipients? WRAP? Advance Directives?
  - both WRAP and Advance Directives should be included
  - Have the program make sure that prescriptions are checked for side effects and interactions
  
4. How would you like to access your EMR/ EHR?
  - Online
  - App on cellphone
  
5. What special concerns should we think about forensic? HIV?
  - When revealed that they are Mental illness they are treated differently (can the separate Mental Health and physical Health records
  - To be able to communicate if you see something wrong/ or add information to your chart
  - If you have HIV or other disease they are protected – only certain health professionals can access
