

## Changes to the Clinical Summary:

The following additions have been made to the Clinic Summary:

- A “Secondary Diagnosis” column has been added in the “See All Data” and “See Provider Detail” tables in the “Behavioral Health Services,” “Medical Outpatient Services,” and “Hospital/ER Services” sections.
- A “Procedure” column has been added in the “See All Data” and “See Provider Detail” tables in the “Medical Outpatient Services” section.

## Changes to My QI Report:

A “Site’s Recipient(s)” tab can now be generated from the “Site” tab.

1. On the “My QI Report,” click an indicator set to generate the “Indicator Tab.”
2. Click an indicator name or “Summary” to generate additional tabs, including “Site” Tab.
3. Click the “Site” tab.
4. Click a hyperlink under the “Site Address” column which will generate a “Site’s Recipient(s)” tab listing recipients linked to the specific site.

## Changes to Quality Indicators:

The “High Need – Ineffectively Engaged” indicator has been removed from the PSYCKES application.

## Changes to Usage Reports:

All providers are now able to create usage reports showing PSYCKES user activity. To access this function, go to the “Usage Report” tab at the top of the PSYCKES screen and click on “PSYCKES Usage.”
