Mental Health

Introduction

The New York State Office of Mental Health's County Capacity Utilization and Data Book for Calendar Years 2014-2015 includes inpatient and community-based psychiatric service utilization and capacity statistics displayed at the statewide, region and county levels. Utilization of inpatient services are described by provider county of location and by patient county of residence in separate tables. Inpatient and outpatient service capacity and utilization are displayed for the adult (18 and older) and child (under 18) populations where appropriate. Service utilization based on per capita rates from US Census 2014 population estimates are also included.¹

The data presented come from the following administrative data sources: CAIRS, CONCERTS, ICR, Medicaid, MHARS, PCS, and SPARCS.² Data limitations are described below.

Data Limitations:

- First and foremost is the timeliness of the data. Average daily census (ADC) data is based on 2014 information whereas capacity is as of October 2015. ADC is also reported by the patient's county of residence. For these two reasons ADC can exceed capacity; for example, see adult data for Orange and Niagara counties in Table 1.
- Psychiatric inpatient units that have closed during calendar year 2014 are included in calculation of the ADC.
- Community-based service utilization (Tables 9-14) is reported by county of program location allowing planners to identify where services are located.

¹ See Appendix 1 - US Census 2014 Estimates by OMH Region and NYS County

² See Glossary of Terms on page 4.

However, program service areas may extend beyond county borders. A county relatively rich in outpatient services for example, may serve both its residents and those of a neighboring county.

- Clinics are not licensed for specific slot capacities, therefore size is measured by the estimated total number of persons served annually. Tables 10 and 13 include data from the following sources:
 - Medicaid-enrolled adults and children receiving clinic services.
 - Medicaid and non-Medicaid adults and children receiving State-operated clinic services.
 - The estimated annual count of non-Medicaid adult and children served in non-State clinics from the 2013 OMH Patient Characteristics Survey (PCS).
- Inpatient capacity (Tables 1, 3, 5 and 7) may include off-line beds due to staffing shortages, reconstruction or other reasons and may therefore be over-reported.

List of Tables: This data book includes four summary tables and 10 detail tables.

Summary Tables

Inpatient:

Table 1. Adult and Child Total Psychiatric Inpatient Bed Capacity by Provider County and Average Daily Census by Patient County of Residence

Table 2. Adult and Child State Psychiatric Center Average Daily Census by Patient County of Residence

Community-Based:

Table 3. Adult Housing, Outpatient, Emergency and Support Program Capacity or Service Use by Provider County

Table 4. Child Housing, Home & Community-Based Services (HCBS), Outpatient, Emergency and Support Program Capacity or Service Use by Provider County

Detail Tables

Inpatient:

Table 5. Adult Psychiatric Inpatient Bed Capacity by Provider County

Table 6. Adult Psychiatric Inpatient Average Daily Census by Patient County of Residence

Table 7. Child Psychiatric Inpatient Bed Capacity by Provider County

Table 8. Child Psychiatric Inpatient Average Daily Census by Patient County of Residence

Community-Based:

Table 9. Adult Housing Capacity by Provider County

Table 10. Adult Outpatient Capacity and Service Use by Provider County

Table 11. Adult Emergency Programs and Community Support Programs by Provider County

Table 12. Child Housing Capacity and Home & Community-Based Services Slots by Provider County

Table 13. Child Outpatient Capacity and Service Use by Provider County

Table 14. Child Emergency Programs and Community Support Programs by Provider County

Glossary of Terms

Average Daily Census (ADC)	ADC calculation is based on the total length of stay in a hospital for all patients divided by 365.
CAIRS	OMH's Child and Adult Integrated Reporting System (CAIRS) records, facilitates, monitors, and evaluates mental health services provided to children and adults with mental health needs in NYS.
Community-based Services	All outpatient programs, including emergency services, licensed outpatient, housing and support programs. Excludes prison-based forensic units.
CONCERTS	Certificate of Need Certification System (CONCERTS) data are collected by the OMH Bureau of Inspection and Certification (BIC) from local service providers that are licensed and/or funded by OMH.
CY	Calendar Year.
ICR	Institutional Cost Report.
Inpatient Treatment	Includes Residential Treatment Facilities (RTFs), state psychiatric center inpatient units, licensed private hospitals or hospitals for the mentally ill, and psychiatric units in general hospitals.
Medicaid	Department of Health (DOH) Medicaid Claims Database.
MHARS	OMH's Mental Health Automated Recordkeeping System (i.e., EMR) for State-operated Hospitals. Data does not include forensic units, Sex Offender Treatment Programs or Research Programs.
PCS	The Patient Characteristic Survey (PCS) is conducted biannually in all OMH-funded or licensed mental health programs. Providers report client-level demographic, clinical, social and diagnostic information for all clients served during the last week in October of the survey year.
RTF	Residential Treatment Facility (RTF) for Children and Youth is a 24 hour per day inpatient treatment program which provides intensive treatment services to children and adolescents age 5 - 21 who need longer term treatment than would be provided on an inpatient psychiatric program operated by a general, private mental hospital, or state psychiatric center.
SPARCS	DOH's Statewide Planning and Research Cooperative System (SPARCS). This system gathers health care industry data on patient characteristics, diagnoses, treatments and services.

County Capacity and Utilization Data Book Summary Tables

Inpatient: Tables 1 - 2

Community-Based: Tables 3 - 4

Table 1. Adult and Child Total Psychiatric Inpatient Bed Capacity by Provider County and Average Daily Census by Patient County of Residence

Shows the total October 2015 adult and child licensed bed capacity by provider county and the 2014 total adult and child average daily census (ADC) by patient county of residence.

Footnotes:

1. Includes General Hospital (Art. 28), Private Psychiatric Hospital (Art. 31) and State Psychiatric Centers' Budgeted Capacity for the county of the providers. Children's capacity includes RTF beds for the county of the providers.
2. Average Daily Census (ADC) covers General, Private Psychiatric, State Psychiatric hospital and RTF (children only).
3. ADC is shown for patient county of residence.

Data Sources: General Hospital (Art. 28) and Private Psychiatric Hospital (Art. 31) current capacity: CONCERTS, 10/2015. Current capacity includes all beds licensed for operation as of that date. State Psychiatric Center budgeted capacity: MHARS, 10/2015. RTF capacity: CAIRS, 10/2015. US Census 2014 estimates.

Table 2. Adult and Child State Psychiatric Center Average Daily Census by Patient County of Residence – CY 2014 and Year ending September 2015

Compares adult and child average daily census (ADC) for state facilities in calendar year 2014 with their adult and child ADC for 12 months ending September 2015.

Footnotes:

1. Includes licensed housing capacity (Data Source: CONCERTS, 10/2015) and non-licensed supported housing slots/beds (Data Source: CAIRS, 10/2015).
2. Includes outpatient capacity (Data Source: CONCERTS, 10/2015) for Partial Hospitalization (PH), Intensive Psychiatric Rehabilitative Treatment (IPRT), Continuing Day Treatment (CDT), Personalized Recovery-Oriented Services (PROS) and Assertive Community Treatment (ACT).
3. Includes Medicaid recipients served annually in non-State clinic programs (Data Source: Medicaid, CY 2014), persons served annually in State-run clinics (Data Source: MHARS, CY 2014) and an estimate of non-Medicaid recipients served in non-State programs. The latter is an annual estimate using the 2013 Patient Characteristics Survey (PCS).
4. Includes persons receiving emergency services during the week of the 2013 PCS.
5. Includes persons receiving support services (e.g., vocational, self-help, care coordination) during the week of the 2013 PCS.
6. US Census 2014 estimates.

Footnotes:

1. Includes licensed capacity for Child & Youth Community Residence and Teaching Family Home (Data Source: CONCERTS, 10/2015).
2. Includes Home & Community Based Services (HCBS) slots (Data Source: CAIRS, CY 2014)
3. Includes outpatient capacity (Data Source: CONCERTS, 10/2015) for Day Treatment and Children's ACT (Assertive Community Treatment).
4. Includes Medicaid recipients served annually in non-State clinic programs (Data Source: Medicaid, CY 2014), persons served annually in State-run clinics (Data Source: MHARS, CY 2014) and an estimate of non-Medicaid recipients served in non-State programs. The latter is an annual estimate using the 2013 Patient Characteristics Survey (PCS).
5. Includes persons receiving emergency services during the 2013 PCS.
6. Includes persons receiving support services (e.g., vocational, self-help, care coordination) during the 2013 PCS.
7. US Census 2014 estimates.
